paulranjith.mec@gmail.com
DOB – 31/03/2005
+91 8330858533

SKILLS & INTERESTS

- **Technical Skills:** Python, REST APIs, Machine Learning, MySQL, Claude, GitHub Copilot, Codex, React, JavaScript, Node.js, Java, Data Structures and Algorithms, Flutter, Dart, HTML, CSS, GitHub Actions, Postman, C++, C
- **Soft Skills:** Communication, Problem Solving, Teamwork, Leadership, Organisational Skills, Public Speaking
- **Interests:** Machine Learning, Web Development, App Development, AWS

EDUCATION

- **Govt. Model Engineering College** — **7.93** | 2027
  KTU, B.Tech in Computer Science Engineering
- **Chavara CMI Public School** — **91.4%** | 2023
  CBSE, 12th
- **Devamatha CMI Public School** — **96%** | 2021
  CBSE, 10th

WORK EXPERIENCE

- **Taxor** — *Ongoing*
  Software Engineering Intern
  Technologies Used: *Python, FastAPI, PostgreSQL, SQLAlchemy, Redis, Stripe API, Zoho Books API, React, TypeScript*
  Build backend integrations for a GST/tax-compliance automation platform, including a Stripe Connect (OAuth 2.0) integration and a background-job sync pipeline that keeps customer and product records in sync with third-party accounting platforms. Work across the full stack, from API design to the corresponding frontend UI, collaborating with senior engineers through code review.
- **Press Ganey** — *2 Months*
  Software Engineering Intern
  Technologies Used: *Python, LangChain, ChromaDB, Hybrid Retrieval, HyDE, Custom Evaluation*
  Designed and optimized a Retrieval-Augmented Generation (RAG) pipeline by integrating hybrid search, vector databases, and evaluation frameworks, improving retrieval accuracy and streamlining document-based question answering.

PROJECTS

- **KnowFlow** — **Team Size: 1**
  AI/ML Engineer — *2 Months*
  Technologies Used: *Python, LangChain, LangGraph, ChromaDB, Groq Llama, BM25, Streamlit*
  Built a RAG chatbot with hybrid retrieval (BM25 + vector search fused via RRF), HyDE query expansion, and cross-encoder reranking to improve accuracy. Designed a custom LLM-judge eval harness, achieving 1.00 faithfulness and 0.945 context precision across 20 benchmark questions. Added source-cited answers and a feedback loop for continuous evaluation.
- **CoFy** — **Team Size: 1**
  Full Stack Developer — *4 Weeks*
  Technologies Used: *Python, FastAPI, Next.js, React, TypeScript, Groq Llama, MongoDB, Server-Sent Events*
  Built a multi-agent content pipeline: a Researcher agent extracts and validates a fact sheet from source material, a Copywriter agent generates blog/social/email content grounded in it, and an Editor agent audits every output for hallucinations before approval. Streamed live pipeline progress via SSE, with per-piece regeneration, dual-auth (Google OAuth + email/password), and full user data isolation.
- **BlockVote** — **Team Size: 1**
  Full Stack Developer — *2 Months*
  Technologies Used: *Solidity, Hardhat, Web3.py, FastAPI, React, face-api.js*
  Built a blockchain e-voting system with a Solidity smart contract for on-chain voter registration, vote casting, and tallying. Implemented dual-layer authentication (face recognition with password fallback) and per-voter Ethereum wallets to prevent duplicate votes, with a FastAPI + Web3.py backend bridging the React frontend to the contract.

COURSES AND CERTIFICATIONS

- Earned certification in **ChatGPT Prompt Engineering for Developers** from **OpenAI** and **DeepLearning.AI**.
- Certified in **Cybersecurity in IoT** through a technical session organized by **IEEE Communications Society SBC NITC**.

KEY POSITIONS

- Took on the role of **Chairperson** at **NSDC MEC 2026**, the AI and ML Club.
- Held the position of **Secretary** at **NSDC MEC 2025,** the AI and ML Club.
- Worked as the **Content Manager** at **IEEE MEC 2025**.

ACHIEVEMENTS AND ACTIVITIES

- Completed the **Build Apps with Flutter** learning pathway and certification quiz, conducted by **Google Developer Program**.
- Participated in the **Student Training Program (STP) on Natural Language Processing (NLP) 2024**, conducted by **ICFOSS**.
- Volunteered at **ICTEST 2024**, an **IEEE Kerala Section** international conference on intelligent and smart computing systems.
- **Hobbies:** Swimming, Reading, Badminton
